## The Right Door Service Options

The Right Door for Hope, Recovery and Wellness provides services to help support your recovery and well-being.

Recovery: “Mental health recovery is a journey of healing and transformation enabling a person with a mental health problem to live a meaningful life in a community of the person's choice while striving to achieve ... full potential.”\*

Components of Recovery: self-direction, individualized and person-centered, empowerment, holistic, non-linear, strengths-based, peer support, respect, responsibility, and hope.

For Veterans, it is important that we recognize the additional components when providing treatment: privacy, security, honor, and support for Veterans and active duty military.

As a Veteran, you have a choice of who provides your treatment. We hope to provide services that enable you to achieve your full potential while respecting and acknowledging the unique strengths, needs, abilities and preferences you bring with you as a Veteran.

Our Access Clinicians can assist with providing an initial screen for all services available to you. Please feel free to make accommodation requests when scheduling this appointment.
