POLICY

Application

This policy shall apply to The Right Door for Hope, Recovery and Wellness.

1. Intent

It is the intent of this policy that policies and procedures be established to define applicable standards and guidelines for the organization's technology usage along with the generation, management, and utilization of data and information.

2. Purpose

2.1. Require applicable policies related to the following areas:

2.1.1. Information Technology –

Information technology refers to the technological transfer, storage, and accessibility of information. Information Technology focuses on the use of hardware, software, and networks to carry out these processes. Information technology is a subset of Information Systems.

2.1.2. Information Systems –

The systems, people, and processes used in daily operations to create, store, manipulate, and distribute information.

3. General Standards

3.1.1. The Right Door shall work to implement a secured environment utilizing the following laws and standards in developing policies and procedures:

The Right Door for Hope, Recovery and Wellness
