Row Labels	%	Count
No	3.57%	1
Yes	96.43%	27
Grand Total	100.00%	28

10. What else would you like to share about your experience with peer services at The Right Door?

- Genuinely one of the best services available, been super helpful and very beneficial to my well being.
- I am grateful for their support in addition to clinical support.
- I enjoy working in the garden
- I have had so many positive experiences with The Right Door, and Katie has always had my back. I'm incredibly grateful she does the work she does, and for the way she helps encourage me to be the best version of myself I can be. She actively makes me want to do better and take steps to improve myself, and I don't have a lot of female encouragement like that outside of TRD. I find I am more confident in myself and how I move through the world, the more I attend groups and have meetups with Katie. I've come a long way from peer recovery days, and I'm looking forward to transitioning to more independence. I appreciate the support I have received this far.
- I really like the writing for recovery, 8 dimensions of wellness, better days ahead, and yoga groups. The money management really helped get my finances in order and in it I learned about MiAble accounts, one of which I opened for myself.
- It has been totally awesome I really appreciate this part of the community venture
- Love it!

- More bike activity
- Simply very, very helpful always
- The program works for my family. The influence trickles down to whole family.
- The recovery garden smells good
- They are very helpful
- This experience has helped me with my social interactions skills
- very helpful I don't feel alone. I'm not suicidal, don't want to hurt myself.

Demographics

1. Age:

- 18 years of age and under: 1
- 19 – 30 years of age: 3
- 31 – 50 years of age: 7
- 50 years of age and older: 9
